BREATHING RITUAL

We are **seeking motivated, curious and experienced professional performers** with stamina and focus who can “go for it” to enact this score.

Stephanie Thiersch re-stages the high-energy 18-minute ritual from the piece ARCHIPEL with NRW-based dance artists. Originally created in collaboration with composer Brigitta Muntendorf (Ruhrtriennale/Theater der Welt 2021), the performance features 30 bodies coming together in a complex breathing rhythm alongside the voices of the Norwegian Soloists' Choir.

Breath, as a symbol of connection and equality, takes center stage, sending a political message against violence and discrimination. The performance calls for **solidarity with Cologne women's shelters** affected by funding cuts. The performers are donating their fees and encouraging the audience to contribute as well.

Participation in workshop & rehearsal is required:

Feb 11th, 7:15–8:45 pm & 2. Feb 12th at 4:30 pm at Alte Feuerwache Köln

No participation fee for mentioned reasons. We offer free meal & drinks on Feb 12 + ticket to a URBÄNG! performance of the participants' choice.
